Networkapp

How it (net)works

With the Networkapp on your smartphone you can network before, during and after the Netherlands Attractiveness Survey (NAS2015) presentation. Check out the programme, post a message or set up a meeting with other participants. Networking has never been this easy.

Worthwhile

Even after the event, the Networkapp remains useful. The contacts established are saved and you can easily add new Board events to the Networkapp.

Get started

1 Download the **Networkapp** from the Playstore or Appstore.
2 Register through LinkedIn or email.
3 Use the special event code **NAS2015**.
4 Post a message, chat or make contact with other participants.
